

Brainstorming & Idea Prioritization Template

<i>Date</i>	26 June 2026
<i>Team ID</i>	XXXXXX
<i>Project Name</i>	Emotion Detection & Learning Support Engine
<i>Maximum Marks</i>	3 Marks

Step 1: Brainstorm and Idea Listing

The project idea was identified after evaluating multiple AI-based learning concepts. The most suitable solution was selected for development.

<i>S.No</i>	<i>Team Member</i>	<i>Idea / Suggestion</i>	<i>Category</i>
1	Akshaya Sugali	AI-powered emotion detection and personalized learning support using voice, text, and facial expressions	AI / Deep Learning
2	Rithika Sundari. S	Personalized learning support based on detected emotions and student behavior	AI / NLP
3	Pavan Eluri	Streamlit dashboard for emotion analytics, reports, and recommendations	Data Analytics / Dashboard

<i>Group No.</i>	<i>Final Idea</i>	<i>Feasibility (High/Medium/Low)</i>	<i>Importance (High/Medium/Low)</i>	<i>Priority</i>	<i>Selected (Yes/No)</i>
1	AI-powered Emotion Detection	High	High	1	Yes
2	Personalized Learning Support	High	High	2	yes
3	Streamlit Dashboard & Analytics	High	Medium	3	yes

Step 2: Idea Prioritization

The selected idea will be developed using AI, deep learning, and Generative AI technologies.
