

No. of Functional Features Included in the Solution

Date	27 June 2026
Team ID	XXXXXX
Project Name	Emotion Detection Learning Support Engine
Maximum Marks	5 Marks

Functional Features Overview:

This document summarizes the functional features implemented in the **Emotion Detection Learning Support Engine**. The solution is designed to help students identify their emotions during learning and receive personalized academic support. It integrates AI models, authentication, analytics, report generation, and session management to provide an interactive and intelligent learning experience. Each feature has been developed, tested, and verified to ensure reliable functionality and ease of future enhancement.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Authentication	Secure login and user authentication	Authentication Module	Done	High
2	Emotion Detection (BiLSTM)	Predicts user emotion using BiLSTM model	Emotion Detection	Done	High
3	Emotion Detection (BERT)	Predicts user emotion using BERT model	Emotion Detection	Done	High
4	AI Learning Recommendation	Provides personalized learning suggestions	Recommendation Engine	Done	High
5	Gemini AI Mentor	Generates AI-powered guidance and responses	Gemini AI Integration	Done	High
6	Session History	Stores user interactions and prediction history	History Module	Done	High
7	Analytics Dashboard	Displays emotion analysis and learning insights	Analytics Module	Done	High
8	Report Generation	Generates downloadable analysis report	Report Module	Done	Medium

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	5

Additional / Nice-to-Have Features	3
Features Tested & Verified	All implemented features were tested successfully and verified for correct functionality.

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Streamlit Interface, Model Selection, Report Download
2	Backend / Logic	3	Emotion Detection, Recommendation Engine, Gemini AI
3	Database / Storage	1	Session History (CSV Storage)
4	API / Integration	1	Gemini AI API Integration
5	Security / Authentication	1	User Login Authentication
